

I am a researcher focused on quantifying risks over the life-course from occupational and environmental exposures. I seek to advance our collective understanding of their public health impacts using a policy-oriented, causal inference framework.

## Education

2014	Ph.D., Epidemiology	University of North Carolina at Chapel Hill
2010	M.S.P.H., Epidemiology	University of North Carolina at Chapel Hill
2003	B.S.(Hons), Biology	Santa Clara University

## Professional experience

2016-Present	<b>Research Assistant Professor,</b> Department of Epidemiology University of North Carolina at Chapel Hill
2014-2016	<b>Postdoctoral Fellow, Chapel Hill, NC</b> Department of Epidemiology University of North Carolina at Chapel Hill

## Honors

2018	Paper of the year - American Journal of Epidemiology
2014-2016	National Institute of Environmental Health Sciences Training Grant - Environmental Epidemiology
2014	EPICOH (Scientific Committee on Epidemiology in Occupational Health) conference Young Investigator Award
2013	Marilyn & Al Tyroler Scholarship in Epidemiology
2012	Sidney Kark Award for Distinguished Teaching Assistant - The University of North Carolina at Chapel Hill Gillings School of Global Public Health, Department of Epidemiology
2010-2014	National Institute of Environmental Health Sciences Training Grant - Occupational Epidemiology
2008-2010	National Institute of Environmental Health Sciences Training Grant - Environmental Epidemiology

## Memberships

2017-Present	American Association for the Advancement of Science
2014-Present	American Statistical Association
2008-Present	Society of Epidemiologic Research
2008-Present	International Society of Environmental Epidemiology

## Publications and presentations

### Published research papers

## PhD thesis

1. **Keil, A. P.** (2014a). "Healthy Worker survivor bias in a cohort of uranium miners from the Colorado Plateau". PhD thesis. University of North Carolina at Chapel Hill.

## Teaching activities

### Courses

2020	Instructor	<i>Motivating and practicing Bayesian data analysis for epidemiologic problems: independent study</i> ; 2 students
2016-2019	Instructor	<i>Perspectives in Epidemiology and Public Health (EPID 890)</i> ; 5-10 students
2018	Instructor	<i>Introduction to Epidemiology and Causal Inference (ULM Summer School of Epidemiology)</i> ; 20 students
2011	Instructor	<i>SAS and Data Management (EPID 700)</i> ; 30 students

### Guest lectures

2019	Instructor	"Missing data in survival analysis" in <i>Biomarkers in Population-Based Research (EPID 742)</i> ; 25 students
2019	Instructor	"Inference in studies with biomarkers subject to limits of detection" in <i>Epidemiologic Analysis Of Time-To-Event Data (EPID 722)</i> ; 15 students
2016-2018	Instructor	"G-formula" in <i>Epidemiologic Analysis Of Time-To-Event Data (EPID 722)</i> ; 25 students
2018	Instructor	Bayesian statistics and simulations in R <i>Introduction to R (EPID 799C)</i> ; 15 students
2016,17	Instructor	Various topics in <i>Fundamentals of Epidemiology (EPID 710)</i> ; 30 students
2016,17	Instructor	"Ionizing radiation and cancer: Epidemiology and studies of survivors of the atomic bombings of Hiroshima and Nagasaki" in <i>Environmental Epidemiology (EPID 785)</i> ; 10 students
2014	Instructor	"BUGS is not WinBUGS (and vice versa)" in <i>Advanced Methods for Epidemiology: Introduction to Bayesian Statistics (EPID 730)</i> ; 15 students

## Current grant and other support

09/2018- Current	R01ES029531 (NIH/NIEHS): Public Health Priority Setting For Environmental Metals Mixtures And Birth Defects	(Keil, Fry) Role: MPI. Duration: 5 years.
08/2019- Current	R01OH011409 (CDC/NIOSH): Occupational Exposure To Ionizing Radiation: Models For Policy Making	(Richardson) Role: Investigator. Duration: 3 years.
09/2018- Current	8323751 (NIH/NIEHS): Inter-governmental personnel act agreement: advanced methods for mixtures research	Role: Investigator. Duration: 2 years.
03/2019- Current	Patient-Centered Outcomes Research Institute (PCORI): Enhancing Hybrid Study Designs for Comparative Effectiveness Research	(Lund) Role: Co-Investigator. Duration: 3 years.

## Service

I serve as a review editor for Frontiers in Public Health (Occupational Health and Safety section). I have performed peer reviews for the following publications: Epidemiology, American Journal of Epidemiology, International Journal of Epidemiology, European Journal of Epidemiology, Biometrics, Statistics in Medicine, Annals of Statistics, Environmental Health Perspectives, Occupational and Environmental Medicine, Annals of Epidemiology, American Journal of Industrial Medicine, Demography, BMC Public Health, Radiation and Environmental Biophysics, IEEE Journal of Biomedical and Health Informatics, International Journal of Hygiene and Environmental Health, Autism Research, and more. I have served as a grant reviewer for the Research Opportunities Program, Ministry of Labor, Ontario Canada.

At UNC, I have served on a number of Master's paper and Dissertation committees:

Student	Year of Degree	Position
Adrien Wilkie	2014	Master's paper reader
Nathan De Bono	2018	Dissertation committee member
Jean Strelitz	2018	Dissertation committee member
Nicole Niehoff	2019	Dissertation committee member
Giehae Choi	*	Dissertation committee member
Danielle Chun	*	Dissertation committee member
Ibrahim Zaganjor	*	Dissertation committee member
Kristin Sullivan	*	Dissertation committee member
Kenny Chen	*	Dissertation committee member
Bailey DeBarmore	*	Dissertation committee member
